### RESIDENT/NONRESIDENT CRITERIA

**Commission Meeting Dates:** 

Proposal Public Hearing

**Finalization** 

April 4-5, 2019 May 2, 2019 May 2-3, 2019 Rapid City Custer State Park Custer State Park

#### RECOMMENDATION

#### 1. The Issue

 Why make the change [1], what are the change alternatives [14], how will public/stakeholder input be solicited [9], and how will the change be evaluated if implemented [17]?

#### 2. Historical Considerations

- What are the current and projected trends in resident and nonresident license sales [5], documented and/or perceived hunter densities [7] and the ramifications of these densities [6]?
- How do neighboring states address the identified issue [15]?

### 3. Biological Considerations

 What is the current and projected status of the population [2] and habitat conditions [3] for these populations?

#### 4. Social Considerations

 How would the change affect resident and nonresident: current and future generations of families [8], opportunities to expand outdoor recreation participation [10] and patterns of land ownership [8].

#### 5. Financial considerations

 What are the financial implications of the change for current and future: revenue for GFP [11]; the proportional contributions of revenue from residents and nonresidents to support species and habitat management programs [4], and the ability of GFP to support species and habitat management programs [5], program income for landowners to manage habitat, sales tax collections in SD, and personal income of business owners and their employees [12].

Duration of Proposal: 2019 and 2020 hunting seasons

Season Dates: November 23 - December 8, 2019

December 14-22, 2019 - for antierless deer tags only

#### Requirements and Restrictions:

- 1. One-half of the licenses allocated in each unit are available for landowner/operator preference.
- In addition to these licenses, 500 "any deer" licenses are available through the "Special Buck" application.
- 3. Landowners not possessing a license that allows the harvest of a buck may purchase an "any deer" or a two-tag "any deer + antlerless deer" license that is valid on their property only.
- 4. Initially, all licenses are available only to residents. Nonresidents may apply for licenses remaining after the fourth lottery drawing.
- 5. A portion of southeastern Minnehaha County is closed to hunting with firearms other than muzzleloaders and shotguns using slugs.

### SUPPORTIVE INFORMATION

The recommendation to establish private land-only units is a management tool that is being considered to meet deer management population objectives and focus the harvest of antlerless whitetail deer on private land.

- 4. Only persons using a wheelchair may apply for the licenses in Stanley County (Unit 58D) designated as a special "Hunters with Disabilities Unit."

#### Proposed changes from last year:

- 1. Adjust resident license numbers from no more than 15,340 one-tag and 3,320 two-tag deer licenses to 12,308 one-tag, 5,220 two-tag deer licenses and 400 three-tag deer licenses.
- Establish Units 15P (includes that portion valid within Unit 15A of Butte County), 27P (includes
  that portion valid within Unit 27B of Fall River County), and 45P (includes that portion valid within
  Unit 45B of Lyman County). These units are for antlerless whitetail deer licenses and would be
  private land only; all public lands are closed to license holders within these respective units,
  including Walk-in Areas.

Recommended changes from proposal: None.

### SUPPORTIVE INFORMATION

The recommendation to establish private land-only units is a management tool that is being considered to meet deer management population objectives and focus the harvest of antierless whitetail deer on private land.

#### DEPARTMENT RECOMMENDATION

Recommended changes from proposal: None.

#### SUPPORTIVE INFORMATION

Per discussions with representatives of The Landowner and Outfitter Alliance, it was requested the department bring forward a recommendation of providing additional hunting licenses under the special buck structure to assure there would be available licenses as experienced in previous years by hunters drawing desired licenses and their ability to pick up leftover licenses. Acknowledging concerns expressed about more licenses available to harvest mule deer, it was agreed upon to bring forward whitetail only licenses for both residents and nonresidents.

### Public Waters Chapters 41:04:02

**Commission Meeting Dates:** 

Proposal Public Hearing Finalization April 4-5, 2019 May 2, 2019 May 2-3, 2019 Rapid City Custer State Park Custer State Park

#### COMMISSION PROPOSAL

#### Proposed changes:

1. Create a "no wake zone" for the waters of Compton's Cove in Stanley County.

2. Modify the "no boating zone" dates on Putney Slough Game Production Area in Brown County from October 15 – December 31 to October 20 – December 31.

3. Remove the year round "no boating zone" on Long Lake in Codington County.

#### DEPARTMENT RECOMMENDATION

Recommended changes from proposal: None.

#### SUPPORTIVE INFORMATION

Compton Cove in Stanley County: The request for the "no wake zone" was brought forward by local residents asking the department to provide the same protection as currently exists in Marian Gardens found just to the south of Compton's Cove.

<u>Putney Slough in Brown County</u>: Making this change will simplify regulations and allow more recreational opportunities for the public.

Long Lake in Codington County: This will allow more recreational opportunity, specifically fishing, as the north end of the lake has the most 'fishable' water. The lake is routinely stocked with walleye on a bi-annual schedule. The lake also has a strong population of yellow perch. This area has become a popular fishery close to the city of Watertown. If this area is opened to boating, GFP will develop a modern boat ramp on the NW side of the lake for better public access.
